

## ACCIDENT FATAL TO INJURED MAN

Marion S. Grapevine Died From Horrible Injuries Received Friday Afternoon.

### DRAWN UNDER REVOLVING SAW

Both Legs Were Severed From His Body and One Arm Was Broken.

Marion S. Grapevine, who was drawn under a rapidly revolving circular saw Friday afternoon in such a manner that both legs were severed from his body, died of his injuries about three hours after the accident. The unfortunate man suffered intense agony from his horrible injuries, and was in a weakened condition from the loss of blood.

Mr. Grapevine has erected a small saw mill upon his farm in Scott county, four miles east of Crothersville, and was sawing some timber to be used in remodeling his home. He had hauled several logs from the neighboring woods, and with the assistance of two friends had started to saw them into boards. He was inexperienced in this line of work and was not accustomed to working with machinery.

About one o'clock in the afternoon he started to place a belt on a pulley, while the engine was running, and in some manner was caught in the belt and drawn under the saw. Both legs were severed from his body, one arm was broken and he was otherwise cut and bruised about the body. In his mangled condition he was carried to his home by the men who were working with him, but on account of the great loss of blood was in a weakened condition and suffered great pain. An immediate effort to secure medical attention was made but this was delayed for some time as he lived several miles from a physician.

The unfortunate man was forty-five years of age and was unmarried.

**WILLEY:**—Mrs. A. E. Willey died this morning at 7:30 o'clock at the home of her son, James A. Willey on Mill street, where she had been in declining health for some time. She was almost seventy-four years of age, having been born January 1, 1837. She had lived in this city for many years, and was well known. On March 28th, 1857 she was married to A. C. Willey, who for many years was an employe of the Pennsylvania company.

The deceased was a life long member of the Methodist church, and was an earnest, conscientious christian. Until prevented by her age and health she was an active worker in the church and her influence for good will long be remembered. She is survived by her husband, one son, James E., of Seymour, three sisters and four brothers. Her sisters are: Mrs. Lulu Lefebvre, of Indianapolis, Mrs. J. L. Perry, of Clifty, Mrs. P. H. Wilson, of Worthington. The brothers are: Harmon Dixon, of Paris, W. O. Dixon, of Wirt, W. P. Dixon, of Hope, and J. T. Dixon, of Paris. She also leaves five grandchildren.

The funeral services will be held at 1:30 o'clock from the residence and 2 o'clock from the First M. E. church conducted by Dr. C. E. Asbury.

**KERKHOF:**—H. C. Kerkhof died at 11:30 Friday night at his home, two miles north of Bobtown. He was sixty-six years old and had spent his life in the neighborhood in which he died. He leaves one son, Alonzo. The funeral services will be held at twelve o'clock Monday at the residence and at 1 o'clock at the White Creek German Methodist church. Burial at the cemetery there.

**MOORE:**—John L. Moore, aged about seventy-eight years, died Friday morning at his home near Crothersville. He was well known in the county. He was a veteran of the civil war. His widow and two sons, Horace and Roscoe, survive him.

#### BIRD AND BEE MAN

Col. Isaac W. Brown, of Rochester, Will Speak to the Schools Monday.

Col. Isaac W. Brown, of Rochester, Ind., who is known all over the country as the "bird and bee man", arrived in Seymour this morning. He will remain over Sunday and Monday. He will speak to the various grades of the public schools Monday under the arrangement with Superintendent Linke. Col. Brown was in Seymour about nine years ago and spoke in the schools. Since that time he has made a five-years tour of the southern states speaking in the interest of our feathered friends, as well as all kinds of animals. He is the friend of Nature and knows more about birds and animals than almost any other man in the country. His addresses are always interesting as well as instructive. It is possible that he may remain for Monday night if arrangements are made for a public address.

#### County Treasurer's Notice.

Late acts of the legislature require the county treasurer to collect delinquent taxes, if necessary by levy and sale of personal property or attachment of wages. The law also holds the treasurer and his bondsmen responsible for the non-collection of such taxes. The undersigned gives notice that the laws relating to the collection of delinquent taxes will be enforced. Parties who have had demand made on them for taxes due will promptly remit to this office or pay the deputy collectors in the various townships. Failure to do so will result in the necessary action being taken to compel payment.

#### G. B. CRAIG INJURED

Foot Badly Mashed as Result of The Breaking of a Cable.

At Martin, a station near Shoals, a B. & O. engine was derailed last night. This morning while assisting in the work of getting it back on the track, G. B. Craig, of Seymour, Assistant Road Foreman of engines, was the victim of a bad accident. A cable on a steam derrick broke allowing a heavy block to fall on his left foot mashing it badly. He was brought to Seymour on No. 4 this morning, Dr. C. E. Stone of Martin county, accompanying him. He was taken to the hospital.

After an examination it was found that it was necessary to amputate two toes and part of his foot. He recovered from the effects of the anæsthetic and is resting very nicely. His physicians do not anticipate any serious effects from the operation.

#### "ST. ELMO"

Play Met With Public Approval From First.

"St. Elmo" was written many, many years ago, but not until the coincident death of its author and the expiration of the copyright was an adequate stage version possible. Fascinated by the dramatic qualities of the famous novel, Miss Grace Hayward, herself an actress from early girlhood and whose dramatization of "Graustark" has placed thousands, set to work to make a stage story of Mrs. Wilson's wonderful story. That she has succeeded in building a cohesive, thrilling play, teeming with heart interest and with all the dramatic unities preserved in threading the stirring incidents which fill the chapters, is the testimony of thousands who had the good fortune to witness the first production. So spontaneous was the public verdict that a special company has been organized and is now entering on a tour which promises to mark an epoch in the history of dramatized novels. The company has been selected by a veteran manager of high reputation and organized with full consideration of the great scope and demands of Miss Hayward's play.

## AWFUL PAINS FULLY DESCRIBED

A Lady of Pizarro Tells Story of Awful Suffering That Cardui Finally Relieved.

Pizarro, Va.—"I suffered for several years," writes Mrs. Dorma A. Smith, "with that awful backache and the bearing down sensations, so fully described in your book.

"I tried doctors and other medicines and found little relief, until I was induced to try Wine of Cardui, when I found instant relief and today I can heartily recommend Cardui to all suffering women and think there is no other as good."

In some instances, Cardui gives instant relief; in others, it may take a little time. But in all cases of female trouble Cardui can be depended on to be of benefit, as it is a specific remedy for women and acts in a curative way on the womanly organs.

As a general tonic for women, to build up your strength, improve your appetite, bring back rosy cheeks and make you look and feel young and happy, nothing you can find will do so much for you as Cardui.

Your druggist has it.

## SEC. DICKINSON WANTS AIRSHIPS

Says Army Needs Dirigibles and Aeroplanes.

### CITES EUROPEAN EXAMPLES

Secretary of War in Report Says That France and Germany Have Made Big Progress in Aerial Work While United States Has Stood Still—Interesting Extract From Report of United States Army Officer.

Washington, Dec. 10.—In his annual report J. M. Dickinson, secretary of war, recommends that the government provide the army with both dirigible airships and with aeroplanes for instruction purposes and for field work. He says:

"Aerial navigation is attracting world-wide attention. Marked progress has been made in this art during the past year. Its possible influence upon the art of war is much discussed among military authorities the world over. Recently in Berlin and Paris opportunity was afforded me to witness aviation tests that were being made there by the military, and I was impressed with the interest and activity displayed in the development of this new art with special reference to its possibilities for use in the military service.

"Information from abroad indicates that at the present time Germany possesses fourteen military dirigible airships and a number of aeroplanes and France seven military dirigible airships and thirty aeroplanes.

"Late information received from France indicates that the French government has recently ordered eleven new dirigibles of different dimensions, whose delivery will take place at different times within the next twelve months.

"The following is an extract from a report of an officer of the United States army on the autumn maneuvers of the French army from Sept. 15 to Sept. 18, 1910:

"But the most striking thing was the aeroplane. The French have made wonderful progress in this respect. I saw Lieutenant Bellenger in his monoplane rise right out of a wheat stubble field. The biplanes and monoplane were everywhere. They traveled with great speed and must have seen everything except where the troops could be concealed in the woods. An efficient aeroplane corps is certainly indispensable to an army.

"The United States, which was the first nation officially to recognize the aeroplane for military purposes and which conducted at Fort Myer in 1908 the first public flight of a heavier than air machine, has since that date made no addition to its aeronautical equipment which at present consists of one small practice dirigible balloon, one Wright aeroplane and three small captive balloons.

"It is contended by some that dirigible balloons and airships will at best prove to be of doubtful utility in warfare. The fact remains that all European first-class powers are devoting a great deal of attention to the subject of military aeronautics and are displaying marked activity in the development and supply of both the dirigible and the aeroplane for war purposes, while the United States is practically at a standstill in this matter.

"In my judgment the time has come when it would be wise to make appropriations adequate for providing the signal corps with a reasonable number of the better type of machines for instruction purposes and for field work."

### RENDERED ELECTION VOID

"Drys" of a Kentucky County Used Bible For Party Emblem.

Frankfort, Ky., Dec. 10.—Because the "drys" of Powell county, Kentucky, used the Bible as an emblem on their ballots in a recent local option election and carried the county, the state court of appeals has declared the election void. On each ballot was the picture of an open book with the words "Holy Bible" under it. The "wets" for an emblem used the picture of a whisky bottle and a glass, out of which protruded the head of a snake. At the first trial witnesses testified that they were told that if they wanted to go to heaven they should make their mark under the Bible. One man said he wanted to vote wet but feared if he did not heed the sign of the Bible that the Almighty would wreak vengeance on him. In the opinion handed down it is said a statute prohibits the use of the Bible as an emblem on election ballots.

### DISPLAY WINDOW

Decorated by Frank Krueger Wins Second Prize in Chicago.

Frank Krueger, formerly of Seymour, who is proprietor of a drug store in Chicago, has been awarded second prize for the most artistic display window decorated with soap. The contest was inaugurated by Armour Company and was conducted in several of the large cities. The prize which was given to Mr. Krueger was for the second best window in Chicago and for the sixth best in the United States. The decorating was done by Mr. Krueger who is very skillful in arranging his display windows.

If you are suffering from biliousness, constipation, indigestion, chronic headache, invest one cent in a postal card, send to Chamberlain Medicine Co., Des Moines, Iowa, with your name and address plainly on the back, and they will forward you a free sample of Chamberlain's Stomach and Liver Tablets. Sold by Andrews-Schwenk Drug Co.

Frank Branaman, of Brownstown, was here this morning for a short time. Some time ago he received a broken arm, but is improving from the injury.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This liniment is one of the best and most remarkable preparations in use. Sold by Andrews-Schwenk Drug Co.

### Power Taken From Mayor.

Gary, Ind., Dec. 10.—Mayor Thomas E. Knotts was shorn of most of his power when seven members of the city council passed the rules ordinances over his veto, thereby vesting all committee appointments in themselves.

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by Andrews-Schwenk Drug Co.

### Auto Driver Sued by Widow.

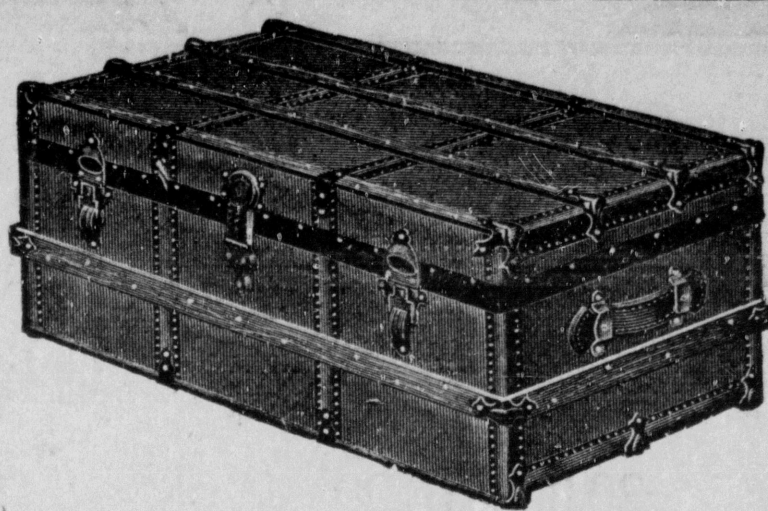

Gibson City, Ill., Dec. 10.—Mrs. Craig Gilmore has filed suit against Mrs. Gullet for \$10,000 damages, alleging an automobile driven by the defendant struck and killed the complainant's husband.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by Andrews-Schwenk Drug Co.

### Will Drain Sunfish Lake.

Sterling, Ill., Dec. 10.—Martin brothers of Sterling have purchased for \$60,000 Sunfish lake and all the land surrounding it in Carroll county. It is now a fishing and hunting ground, and will be drained and farmed.

Many persons find themselves affected with a persistent cough after an attack of influenza. As this cough can be promptly cured by the use of Chamberlain's Cough Remedy, it should not be allowed to run on until it becomes troublesome. Sold by Andrews-Schwenk Drug Co.

## BLOODY TRAGEDY ON TENANT FARM IN OHIO

### Dispute Over Crops Leads to Shooting of Four.

Springfield, O., Dec. 9.—Homer Dillard, aged sixteen, was killed in a battle as the result of a farm feud, his father, Henry Dillard, is dying of his wound, while William Dillard, fifty, and his son Clifford, twenty-five, are wounded.

William, Clifford, Ralph and Thomas Dillard are under arrest, charged with murder. Henry Dillard is accused of shooting William Dillard.

Dillard, tenant, sublet a part of the farm to the Dillards. A dispute over the corn crop's division caused a feud and the Dillards were driven from the farm. An effort on the part of the elder Dillard to cross the farm as a short cut started the battle.

## NEW SCHEDULE FOR INDUSTRY

Congress Pushing Things In  
Unprecedented Fashion.

### CLEARING UP ROUTINE WORK

It's the Expectation in the House to Get Big Supply Measures Out of the Way Before the Holidays, So That the President's Program of Legislation May Be Tackled Immediately After the Recess.

Washington, Dec. 10.—If the present pace is maintained all records for the transaction of business and passage of important bills by the house of representatives before the Christmas holidays will be broken this year. The Indian bill was passed yesterday, the \$31,000,000 rivers and harbors bill will be passed before adjournment today, according to the present schedule, and the legislative, executive and judicial, District of Columbia, pension and urgent deficiency appropriations bills will be passed before adjournment for the holiday recess.

All this haste is due to urgent requests from President Taft that the house get all absolutely necessary routine legislation out of the way as soon as possible in order that there may be time to take up his program of general legislation. The house leaders have passed the word along to the chairmen of all important committees. The result is an unprecedented rush to get the big annual money measures in shape and out of the way.

### CHANGED HIS MIND

After Leaving Big Farm to Roosevelt  
Testator Made a Codicil.

South Bend, Ind., Dec. 10.—Theodore Roosevelt was presented with one thousand acres of valuable timber land by a former admirer, whose will was probated in South Bend yesterday, but this man just before his death changed his mind about the matter and in a codicil he bequeaths the entire property to his brother.

Charles W. Hall died at Benton Harbor, Mich., a year ago after living the life of a miser. He left an estate worth between \$100,000 and \$200,000. His will was probated here because some of the property included in the estate is in Indiana.

Mr. Roosevelt's name appears in a sentence that reads: "To Colonel Theodore Roosevelt of Washington, D. C., I give and bequeath one thousand acres of timber land, located on Brimstone creek, in Scott county, Tennessee. To have and to hold during his natural life."

The original will bears the date of Oct. 5, 1908, but the testator, following the presidential election that year, suffered an inexplicable change of mind, and on Dec. 23 he made a codicil, taking back the bequest to Mr. Roosevelt and giving it to his brother. The codicil does not reveal the testator's motive in making it.

### A TICKLISH JOB

Mexican Government Has a Difficult  
Task to Work Out.

City of Mexico, Dec. 10.—Despite the fact that General Juan A. Hernandez, who is now commanding the federal troops in the Guerrero district of Chihuahua, has under his orders a force of some 3,000 men in a district which numbers only 12,000 persons, the opinion is expressed by those best acquainted with the character of the country that it may take some time to hunt down the bands of insurgents operating in that territory, and reports of depredations may be expected for some weeks to come.

### NO CHANGE IN POLICY

The Christian Science Church Will Go  
on as Before.

Boston, Dec. 10.—The directors of the mother church of Christian Scientists, after a meeting, the first that has been held since the death of Mary Baker G. Eddy, gave out a statement declaring that the authority given to the board of directors by the church manual remains intact, and is fully adequate for the government of the organization in all its affairs. The policy of this board will be the same as when under Mrs. Eddy's active direction.

### Flash Outfit Diverted Suspicion.

New Rochelle, N. Y., Dec. 10.—Two men in evening dress and a woman, all in fur overcoats, with a large yellow automobile and a colored chauffeur, robbed the residence of Mr. and Mrs. Ralph D. Murthey and are believed to have repeated the trick at the home of Mr. and Mrs. Isaac Wallach. In the Murthey residence \$2,000 worth of jewelry was taken. From the Wallach residence the burglars took clothing and jewelry valued at \$500.

### Appeal Is Announced.

Washington, Dec. 10.—The department of justice announces that it will appeal to the supreme court from so much of the judgment rendered in the United States circuit court for the eastern district of Pennsylvania, as was in favor of the defendants in the anthracite coal cases.

## STOMACH TROUBLES

**Cured by Vinol—Here is Proof.**

Seymour, Ind., "I was troubled with a chronic stomach trouble and five weeks ago it got so bad I had to give up work. I had tried various medicines without relief—and was finally induced to try Vinol. After taking the first bottle I was greatly benefited. Am now on the third bottle and gaining in weight and strength." Edw. Nieman. (We guarantee this testimonial to be genuine.)

It is the curative medicinal elements of the cods' livers, combined with the strengthening properties of tonic iron contained in Vinol which makes it so successful in restoring perfect digestion and at the same time it builds up the tired, overworked and run-down system.

Try a bottle of Vinol with the understanding that your money will be returned if it does not help you. Andrews-Schwenk Drug Co., Seymour.

## HAD CATARRH THIRTY YEARS.

**EX-Congressman Meekison Gives Praise To Pe-ru-na For His Relief From Catarrh.**

EX-CONGRESSMAN MEEKISON COMMENDS PE-RU-NA.

"I have used several bottles of Peru-na and I feel greatly benefited thereby from my catarrh of the head. I feel encouraged to believe that if I use it a short time longer I will be fully able to eradicate the disease of thirty years' standing."—David Meekison.

## OTHER REMARKABLE CASES.

Mr. Jacob L. Davis, Galena, Stone county, Mo., writes: "I have been in bad health for thirty-seven years, and after taking twelve bottles of your Peru-na I am cured." Mr. C. N. Peterson, 132 South Main St., Council Bluffs, Iowa, writes: "I cannot tell you how much good Peru-na has done me. Constant confinement in my store began to tell on my health, and I felt that I was gradually breaking down. I tried several remedies, but obtained no permanent relief until I took Peru-na. I felt better immediately, and five bottles restored me to complete health."

## A SINCERE RECOMMENDATION.

Mr. D. C. Prosser, Bravo, Allegan Co., Mich., writes: "Two years ago I was badly afflicted with catarrh of the stomach. I had had a run of typhoid fever, was very depleted. I could find nothing I could eat without causing distress and sour stomach. Finally I came to the conclusion that I had catarrh of the stomach and seeing Peru-na advertised, began to take it. It helped me soon, and after taking three or four bottles I was entirely cured of stomach trouble, and can now eat anything."

# Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly.

If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

## PERFECTION SMOKELESS OIL HEATER

Absolutely smokeless and odorless

solves the difficulty. You can leave the windows in a room open all day in winter, and when you close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes.

The Perfection Oil Heater is finished in Japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an **automatic-flame spreader**, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly cleaned. An indicator always shows amount of oil in the font.

The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.

### HOLIDAY GREETING

Christmas comes but once a year—the time of great rejoicing. We are thankful for life, health and abundant harvests; our gratitude finds form in greeting to our friends. All good for which we strive is linked to the higher nature of man, and to the Infinite through service to Him.

The divine gift of friendship is exceeded only in gratitude that comes from righteous actions worthily done in the service of mankind. That we have the privilege of representing in this community a Natural method that relieves pain, adds health and prolongs life is most gratifying. Our object is to share these blessings as far as we may with those who labor under the handicap of ill health.

It is in the spirit of humility and with a sense of our own unworthiness that we refer to the kindly expressions of confidence and esteem of patrons who regard us their benefactors. Such appreciation makes life a privilege and gives impetus to our work. If gratitude be our due, we assure you, kind friends, it blesses alike both the giver and the receiver. To give to mankind a better way to health and to bring glad tidings of healing to many sufferers who had lost hope is indeed a blessing.

To displace disease with health is the greatest of all human endeavors. No better gift could be bestowed. Evidencing our desire to act kindly and show sympathy to the afflicted, we feel it our duty to tell them of the generous and good gifts that come from the skilful application of Osteopathy by the Spaulhursts Osteopaths, at their offices in this city every Monday, Wednesday and Friday.

Our willingness to help you is evidenced by our free consultation and examination, which gives us an opportunity to give you an honest opinion of the cause of your ailment and to explain the application of our treatment to your individual case. We endeavor to give a little more satisfaction than is expected and make good every promise. Thus patrons are invariably satisfied, become "boosters" and keep us busy.

Wishing one and all a merry Christmas, a happy and prosperous New Year and realizing without health there can be neither of the former, we comment to you Nature's own way to health. We again express our thanks and appreciation for the liberal patronage accorded us and hope to merit a continuance of your favors by seeking to give still more efficient and effective service.

## Mother! Daughter! Sister!

Why worry about what you are going to give your husband, brother, or "the man" for Christmas? If in doubt come to our store for we have the very thing he wants.

## WEAVING WEB AROUND HOOSIER DEMOCRATS

### Indiana Congressmen Entertained By Harmon Boomer.

Washington, Dec. 10.—A bit of political subsoiling around Washington that is exciting the anxiety of friends of other prominent Democrats who have been mentioned for the presidency is being done by friends of Governor Harmon of Ohio. Willis J. Abbott, who is a close friend of Governor Harmon and appears to be carrying on a very active propaganda of the Harmon boom, gave a dinner at Congress hall to which the Democratic members of congress from Indiana were invited. Nine out of eleven Democrats in the Indiana congressional delegation attended the dinner, met Governor Harmon, and came away with the notion that he was good presidential timber.

"While we of Indiana are for Governor Marshall for president," said one of the Hoosier representatives, "we must concede that Governor Harmon is a delightful neighbor and presidential timber. But Indiana will present the name of Governor Thomas R. Marshall to the next Democratic convention."

But Willis J. Abbott, who was standing by and heard the Hoosier remark, smiled hopefully, as if he meant to imply that he had woven a web around the Indiana Democrats.

Carter H. Harrison, four times mayor of Chicago, wants the job again. He has announced his candidacy and is making a fight at the Democratic primaries.

### DIFFERENCES

With President Willard Cause of Potter's Resignation.

Saying that irreconcilable differences had arisen between himself and President Willard over operating policies which made it unwise for him to remain in the service of the company, George L. Potter today made a statement regarding his resignation as Third Vice President of the Baltimore and Ohio Railroad Friday at the meeting of the Directors in New York.

Mr. Potter, when interviewed at his office did not hesitate to give his reasons for severing his connection with the road in whose service he had been for the past nine years. He declared that the difference of opinion existing between himself and the Chief Executive could not be removed and that he thought it best for him to step down and out, in order to give President Willard a free hand in the operation of the railroad property. He also declared that it was his present intention not to enter railroad service again and that he would continue to make his home in Baltimore.

He emphatically denied that there was any personal friction between President Willard and himself. He said that they were the best of friends although as before stated, they did differ over the operating policies of the Baltimore and Ohio.

Mr. Potter stated that the labor troubles had nothing to do with his leaving the Baltimore and Ohio. He admitted that the machinists' strike had taken place recently, but that this had nothing to do with his resigning.

### Take Care.

When the kidneys are effected, life is in danger. Read what Foley Kidney Pills have done for your neighbor. Mr. Emmet Jackson, Bloomington, Ind., says: "For the past few years I have worked over turpentine which I think is the cause of my kidney trouble. It started with an acute pain in the back over the kidneys. I felt all out of sorts and was annoyed by an irregularity of the kidneys accompanied by a scalding and burning sensation. There was a continual tenderness in the loins and a general feeling of weakness that unfitted me for my daily work. My eyes began to bother me and I had terrible headaches with dizzy spells. At this time I commenced taking Foley Kidney Pills and soon improved under the treatment. I kept it up steadily and now thanks to Foley Kidney Pills am well and strong again."

### More Men Employed.

The B. & O. has hired the following additional firemen at this point: C. W. Corbin, Butlerville; Lee Cunningham and F. Moles of Louisville; Bush Momyham, Mitchell; Howard Lee, Edinburg; A. Delmar and A. D. Johnson, expert firemen of Duluth, have also been added to the force. Reed McGinnis, an engineer from Louisville, was hired Friday.

### For That Dull Feeling After Eating.

I have used Chamberlain's Stomach and Liver Tablets for some time, and can testify that they have done me more good than any tablets I have ever used. My trouble was a heavy dull feeling after eating.—David Freeman, Kempt, Nova Scotia. These tablets strengthen the stomach and improve the digestion. They also regulate the liver and bowels. They are far superior to pills but cost no more. Get a free sample at Andrews-Schwenk Drug Company's drug store and see what a splendid medicine it is.

### Says He Acted in Self-Defense.

Terre Haute, Ind., Dec. 10.—Confessing that he had killed James Demo, aged thirty, a Turk, Rom Felto, aged twenty-one, a fellow-countryman, declared he committed the deed in self-defense. Six bullets pierced Demo's head and body. Felto said Demo had approached him and threatened his life before he shot.

### A Simple Safeguard For Mothers.

Mrs. D. Gilkeson, 326 Ingles Ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. A. J. Pellens.

The car force in the B. & O. yards here was cut five men today. The road has been getting its cars in good shape lately and fewer men as a consequence are needed in repair now.

Dear Friend:

Prunes, when you stew them are a mighty nice thing to begin breakfast with. Don't you think so?

There is lots of difference in the kinds of prunes you get though. If you want to get real nice prunes you must go to a grocery that carries good prunes and other fruits.

Prunes are nice and healthy too. They make a good economical breakfast fruit, because you can get a whole pound of extra large ones for 15c.

P. S. All kinds of dried fruits, the best to be had at

## CENTRAL "SPOT" MAY MOVE THIS WAY

Several Local People Have Figured Center of Population May Be in This County.

NO OFFICIAL REPORT MADE

After Census is Completed The Department Will Begin to Locate The Place.

As the official census of the United States is almost tabulated and will soon be announced, there is much speculation as to where the center of population will be located during the next ten years. Several persons here who have given this question some attention are of the opinion that it may land in Jackson county, although the reports from Columbus say that it is expected that the "spot" will go north and west. At the present time it is located in Bartholomew county near Columbus.

The great gains in population made in the south and west during the past ten years will be important in the location of the center of population. However, it is said, that the increases shown in California and in the northern states will tend to send the center of population almost on a direct line west, or possible to the northwest in which case it would be located in Morgan county. If it should go due west it would be

situated in Moore county, or even Brown county.

No official report has been made regarding the location of the center of the population, although census director Durand has stated that in his opinion it will not be moved over twenty-five miles in any direction. He did not say which direction he thought it would go.

A dispatch from Washington which would indicate that the center of population will come in the direction of Jackson county says:

Census figures so far tend to show that the center of population will be nearer the south than in 1900, unless the great gains in population shown by New York should offset the slower growth of the middle west states north of the Ohio river and as far west as the Missouri.

The "farthest south" for the center of population was in 1820, when it stood at a point sixteen miles north of Woodstock, Va. The total population of the country at that time was 4,500,000.

It is interesting to note that since the first census, in 1790, the center of population has moved from a point twenty-three miles east of Baltimore to a point about five miles southeast of Columbus, Ind., a distance of 505 miles.

Except for the sheer drop southward in 1820, this movement of the center of population has been steadily westward practically on a straight line and slightly toward the southwest, the course almost taking it across the Ohio river at Cincinnati in 1880.

The heavy growth of the southwest is this year serving to check the movement of the center of population due west. The gains in population of Oklahoma and Texas, especially the latter, have been enormous, and to some degree unexpected.

These gains are in striking con-

trast with the slower growth of the central and upper Mississippi valley states. The rate of increase has also been rather small in the Ohio valley states.

The wheat farmers in the central valleys were attracted by the inducements held out by western Canada, while the stock raisers and others sought new homes in Texas and Oklahoma.

This movement is believed now to have practically stopped. In fact, a return movement from Canada has been noticed for almost a year. There has been no appreciable return, however, from the southwest.

You Must Read This if You Want the Benefit.

J. W. Greer, Greenwood, La., suffered with a severe case of lumbago. "The pains were so intense I was forced to hypodermic injections for relief. These attacks started with a pain in the small of my back which gradually became fairly paralyzing. My attention was attracted to Foley's Kidney Remedy and I am glad to say after using this wonderful medicine I am no longer bothered in any way by my old enemy lumbago." A. J. Pellens.

Jury Mulcts Traction Company. Elkhart, Ind., Dec. 10.—A jury gave Mrs. Ida Mishler of Middlebury a verdict for \$4,000 in her damage suit against the St. Joseph Valley traction line. She alleged that her health was ruined by poor car ventilation and subsequent exposure while being carried from a car to a farmhouse during a storm.

## FOUR FIRES

Were Answered by Fire Department In November.

At the regular meeting of the board of public safety Friday evening, Fire Chief W. S. Everhart reported that during the month of November there were four fires with a loss of \$225. He reported that the new bearings had been placed on the hose wagon and that they were giving good satisfaction.

Chairman Mills stated that he was of the opinion that the fire horses should be exercised by riding rather than by hitching them to the wagon each morning. He said the usual practice runs damaged the wagon, which should be given the best of care. The chief was given permission to purchase a saddle for the firemen in making the runs.

The question of increased salaries for the firemen was also discussed. The city attorney, E. P. Elsner, stated that the councilmen could not increase the salaries of any of the officers because of an ordinance adopted when the salaries were first arranged. At the present time the firemen are receiving \$45 per month.

Elder Harley Jackson went to Redding this morning where he will conduct the funeral services of Mrs. Betty C. Ackeret this afternoon.

## AMAZING VALUE OF 1910'S FARM PRODUCT

Belongs to Stories of Magic, Says Mr. Wilson.

Washington, Dec. 9.—"Nothing short of omniscience can grasp the value of the farm products of this year," says Secretary of Agriculture Wilson's report. "At no time in the world's history has a country produced farm products within one year with a value reaching \$8,926,000,000, which is the value of the agricultural products of this country for 1910. The value of farm products from 1899 to the present year has been progressive without interruption. If the value of the products of 1899 is placed at 100 the value for this year is 189, or almost double

the value for the census year eleven years ago. During this period of unexampled agricultural production, a period of twelve years, during which the farmers of this country have steadily advanced in prosperity and wealth and in economic independence, in intelligence and a knowledge of agriculture, the total value of farm products is \$79,000,000,000.

"The corn crop of 3,121,381,000 bushels exceeds that of the record year 1906 and is greater than the average crop of the preceding five years by 14 per cent. While the value of this corn crop is below that of 1909 and also of 1908, its amount belongs to stories of magic. It can hardly be reckoned as less than \$1,500,000,000, a sum sufficient to cancel the interest-bearing debt of the United States, buy all of the gold and silver mined in all of the countries of the earth in 1909 and still leave to the farmers a little pocket money."

### FOOLED HIS TEACHER

By Amazing Feats of Memory Blind Boy Was Able to "Read."

Richmond, Ind., Dec. 9.—Memorizing his lessons by having them read to him by his brother and deceiving his teacher by holding a book before his sightless eyes while pretending to be at study, Raimondo Bales, aged eleven, a pupil in the Dalton township district school, has for months stood high in his classes. The fact that he was blind was unknown to his teacher or the pupils, although they were aware that his eyesight was defective. His ability to read and write almost as well as other boys in his class, putting down words at dictation on slate or paper, completely fooled his teachers. Bales's eyes appear to be in normal condition. Dr. J. E. King, county health officer, while inspecting the school this week, noticed that while Bales had to be led into the schoolroom by his brother, he was able to "read" lessons aloud in class. He made an examination and disclosed that the boy was totally blind. The lad will be given a place in the state school for the blind.

## THE C. S. CHURCH FACES A CRISIS

No Provision In Its By-Laws For Present Situation.

### AND NO WAY TO CHANGE THEM

Herself Reliant, So It Would Seem, Upon Immortality, Mrs. Eddy Had Left Her Wonderful Organization Powerless to Revise the Present Laws or Make New Ones, and Serious Questions Are Involved.

Boston, Dec. 9.—The continued existence of the Christian Science church in anything like its present form is threatened and the five directors of the Mother Church of Christ, Scientist, implied inheritors of the power that lay in the hands of Mary Baker G. Eddy, have faced since her death and face today, a situation of much gravity. This because she herself, reliant, so it would seem, upon immortality, had so bound the very essence of the laws governing the church to her own personality that with Mrs. Eddy gone those behind her are powerless to revise the present laws or make new ones.

Not only is a major portion of this constituent law of the mother church, which is codified in the "Manual of the Mother Church," rendered null and impossible of further application by Mrs. Eddy's death, but even one of the deeds conveying land upon which the magnificent First church stands becomes void the minute that the board of directors revises this manual without written consent of Mrs. Eddy. Archibald McLellan, the chairman of the directorate, was asked if he knew of the existence of any written abnegation of power by Mrs. Eddy or of the transfer by her to the directors or to any other person of the power which she held which would make the law of the church self-operative.

"I know of no such instrument," said Mr. McLellan, and when he was further pressed regarding the situation in which the church finds itself, he said: "You are now raising an extremely critical and important question. I cannot answer intelligently until all of the directors have gone into consultation upon the situation."

By those words Mr. McLellan fitted the last cog into the wheel and revealed the position in which the directors of the mother church now find themselves and the church itself. Unless such a written transfer of power by Mrs. Eddy or testimony of withdrawal by her of the fiat which embraces the constituent law of the church is found, the directors of the mother church of the entire sect discover themselves in this position:

The manual, which has already passed into its eighty-eighth edition, must forever remain as it is now with its last emendation, that covering the case of the Stetson rebellion. The manual cannot be exercised in its every position in default of the consent, written or oral, of Mrs. Eddy. The board of directors itself is debarred from performing certain duties necessary to the continuation of the functions of the church. It was to McLellan and John V. Dittmore, one of the directors and the clerk of the church, that questions concerning the contingencies arising out of this anomalous situation were propounded. Mr. McLellan appeared to be surprised to have pointed out to him the various provisions which are now nullified by Mrs. Eddy's death. His puzzlement and his unpremeditated confession of the gravity of the situation pointed out to him seemed to indicate that he, too, had believed in Mrs. Eddy's permanency on earth. Mr. Dittmore, while joining McLellan in admitting the fact that no saving instrument from Mrs. Eddy was known to exist, wished to give the impression that he had hopes that when an examination of the departed leader's will and other papers was made it would be discovered that she had made provision for the church she had reared with her own personality, as against three-fourths of the foundation falling when the miracle of death came to her.

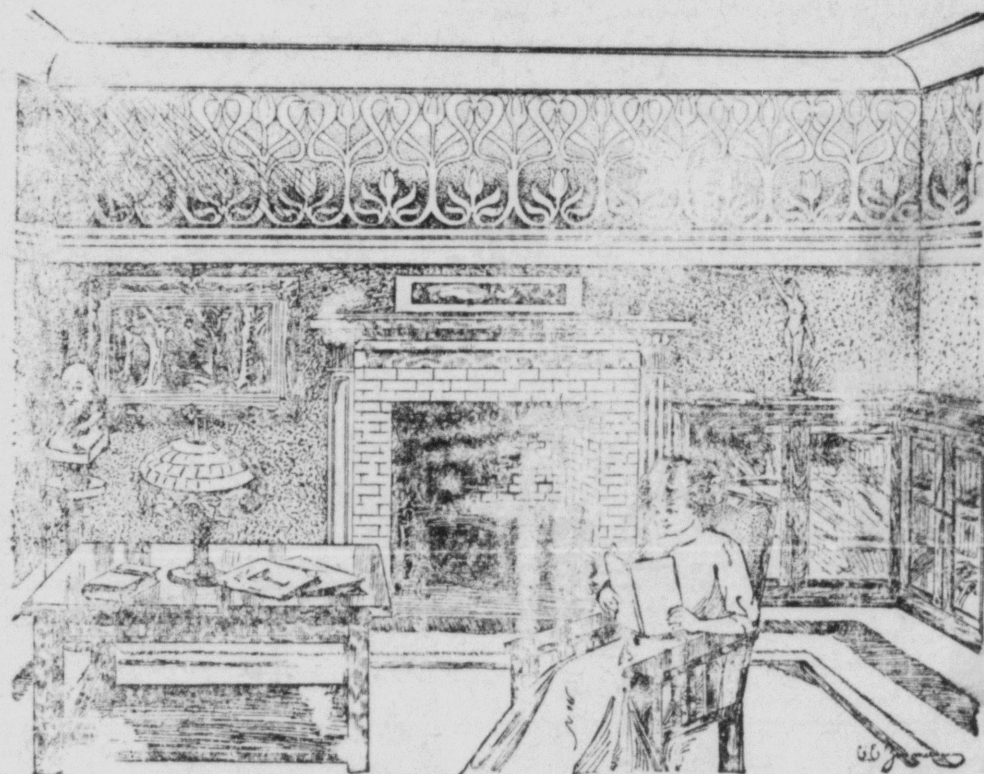

Even if by will Mrs. Eddy should be found to have conferred her right to exercise personal fiat over many of the important functions of the church law, it is a question which must eventually be decided in the courts whether that provision would be valid as against trusts involving the church property and to which one of the parties is still living. When Mrs. Eddy died one of the first authoritative announcements made by Alfred Farlow, the mouthpiece of the directors, was that there would be no successor to Mrs. Eddy. There would be no elevations to rank above the common in the church, it was said. When the fact was pointed out to Mr. McLellan and Mr. Dittmore that the first clause of the church by-laws directed that a pastor emeritus should be one of the officers of the church, Mr. Dittmore said: "Well, how are we going to have a pastor emeritus when we have no pastor?" That was his only answer.

### Charged With Willful Murder.

Calro, Ill., Dec. 9.—At the inquest over the remains of Night Sergeant Wilford French, who was killed by Sheriff Ab Bankston of Pulaski county, the jury held Bankston without bail for willful murder. Bankston is in the Murphysboro jail.

### Tobacco a "Food" or "Drug."

Washington, Dec. 9.—Senator "Bob" Taylor of Tennessee has asked congress to declare tobacco a "food" or "drug" and to punish individuals who adulterate or misbrand it or its compounds. The senator's bill would bring tobacco within the operation of the food and drug act.

## LIBRARY FURNITURE

THE library is something comparatively new in some houses; but, as we progress in literary ways we naturally must have a place for our books, and also a nice place to sit and read—a congenial, homey room—a place you like to stay in. And just such a place you may have, if you will come and look over our splendid line of book-cases, library tables and comfortable Morris chairs. You will be just as enthusiastic as we were when we first saw the goods, and will, no doubt, buy just the same as we did; for the prices, as well as the goods are compelling.
